Getting started

EventShare App will establish an easy to use infrastructure for reporting and finding events such as: parties, meet-ups, trips, etc.

Users will be able to chat, exchange experiences and share photos about the event, before and after it occurs with other participants by a build in event groups.

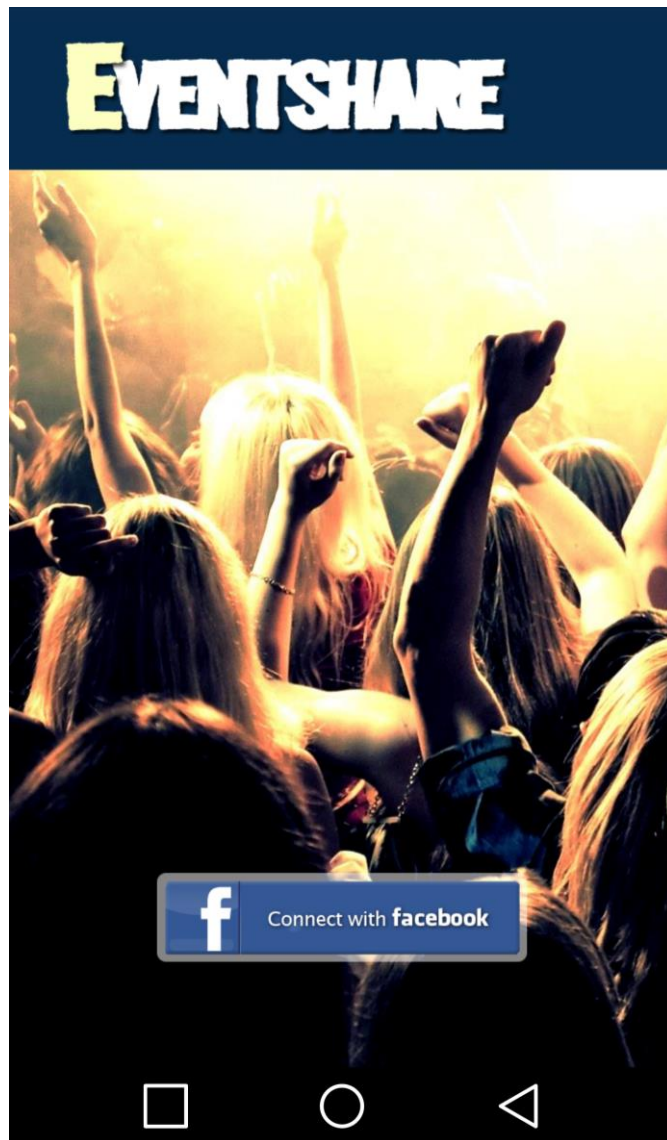

EventShare will allow users to search an event by geographical proximity or labels and share what they found with other users by their choice.

After the installation you will see the following icon in your applications screen:

Login screen

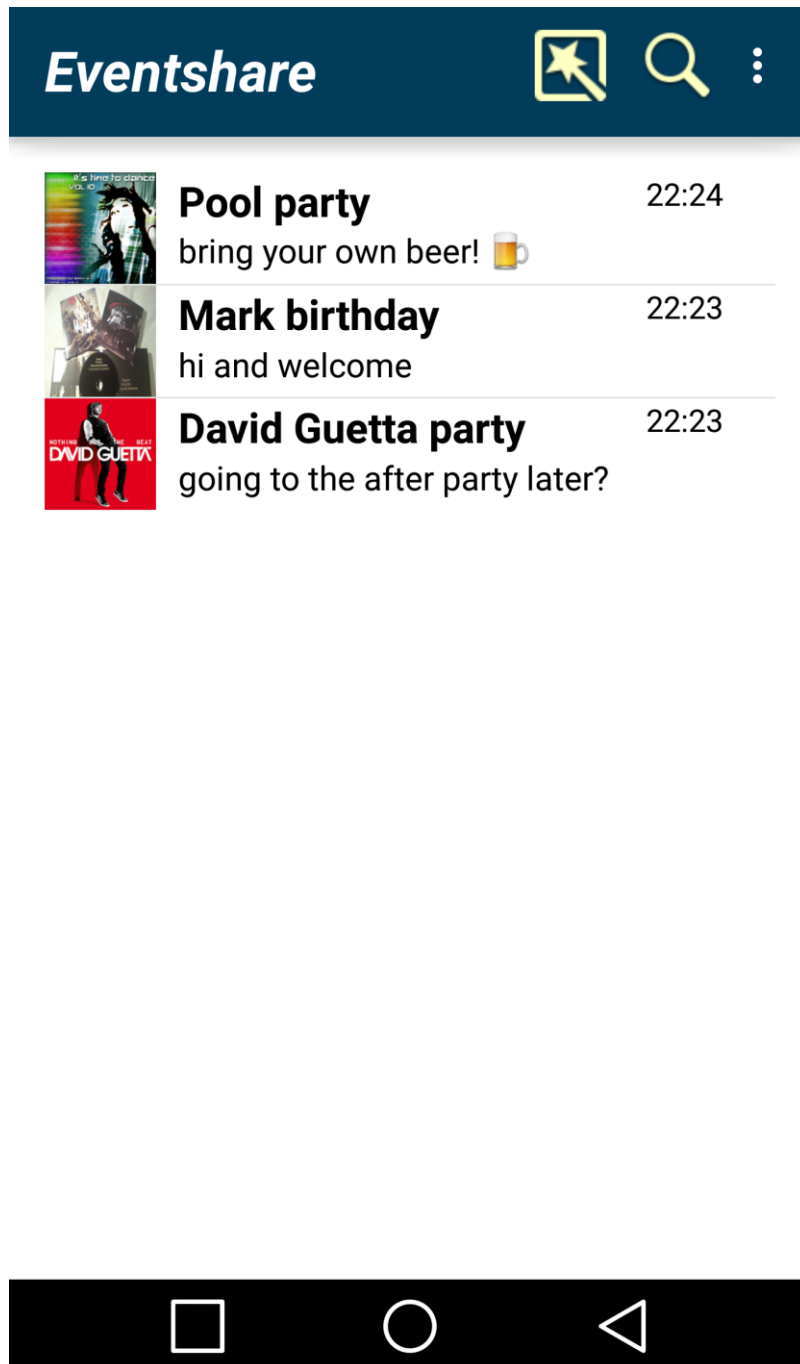

Tap on this icon to run the application and see the login interface

Tap the "connect" button which will perform initial login with your facebook credentials.

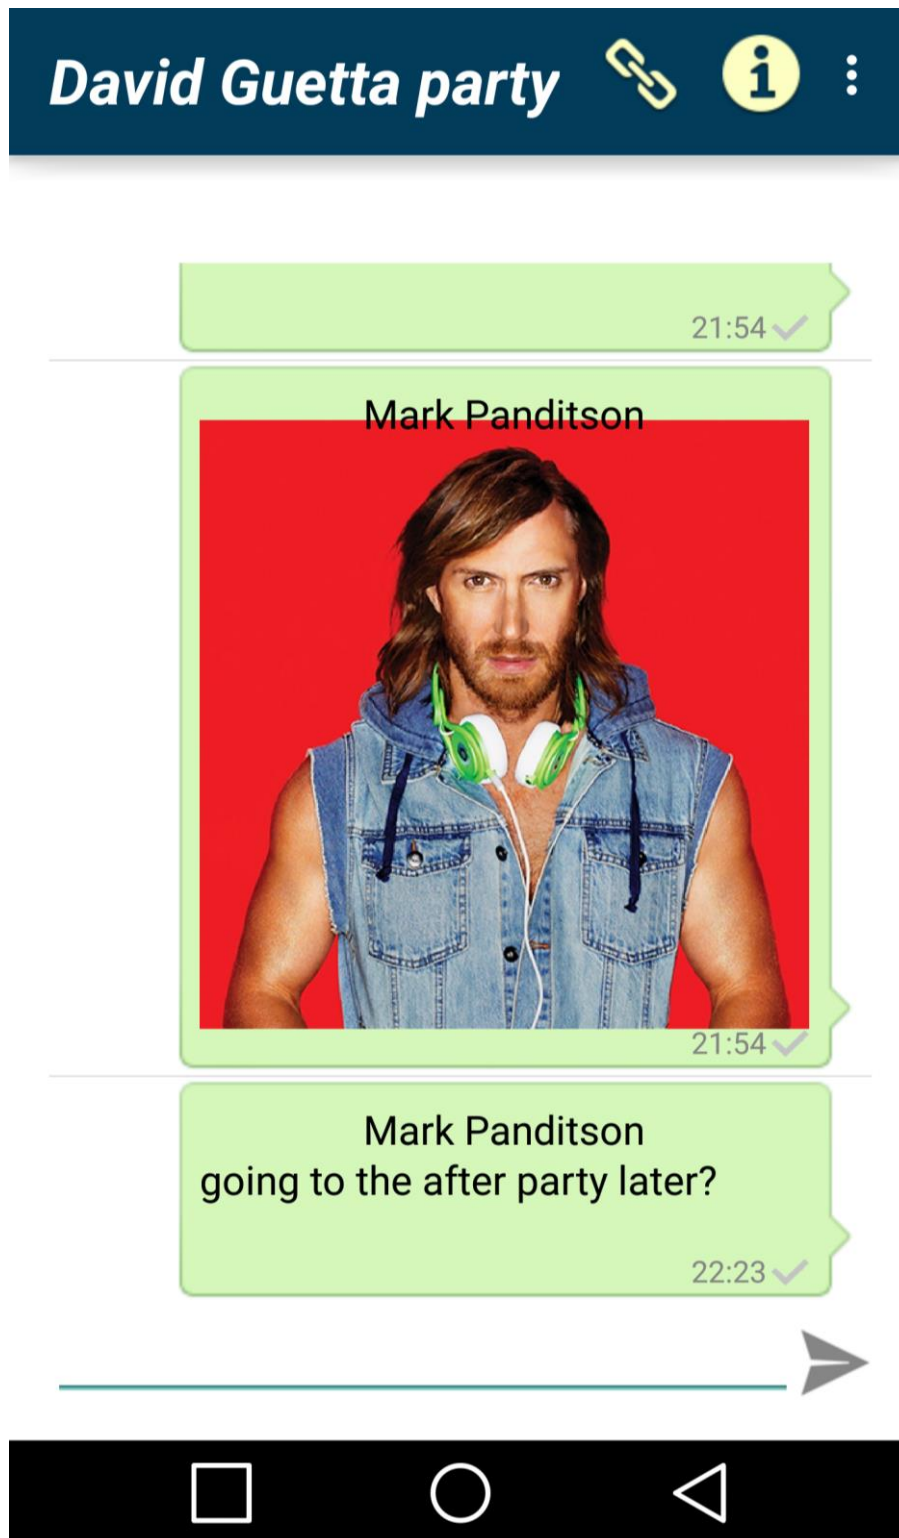

Main screen

The main screen of all event chat rooms should appear:

Event chat room screen

Clicking on each of the groups in the list will open its chat room

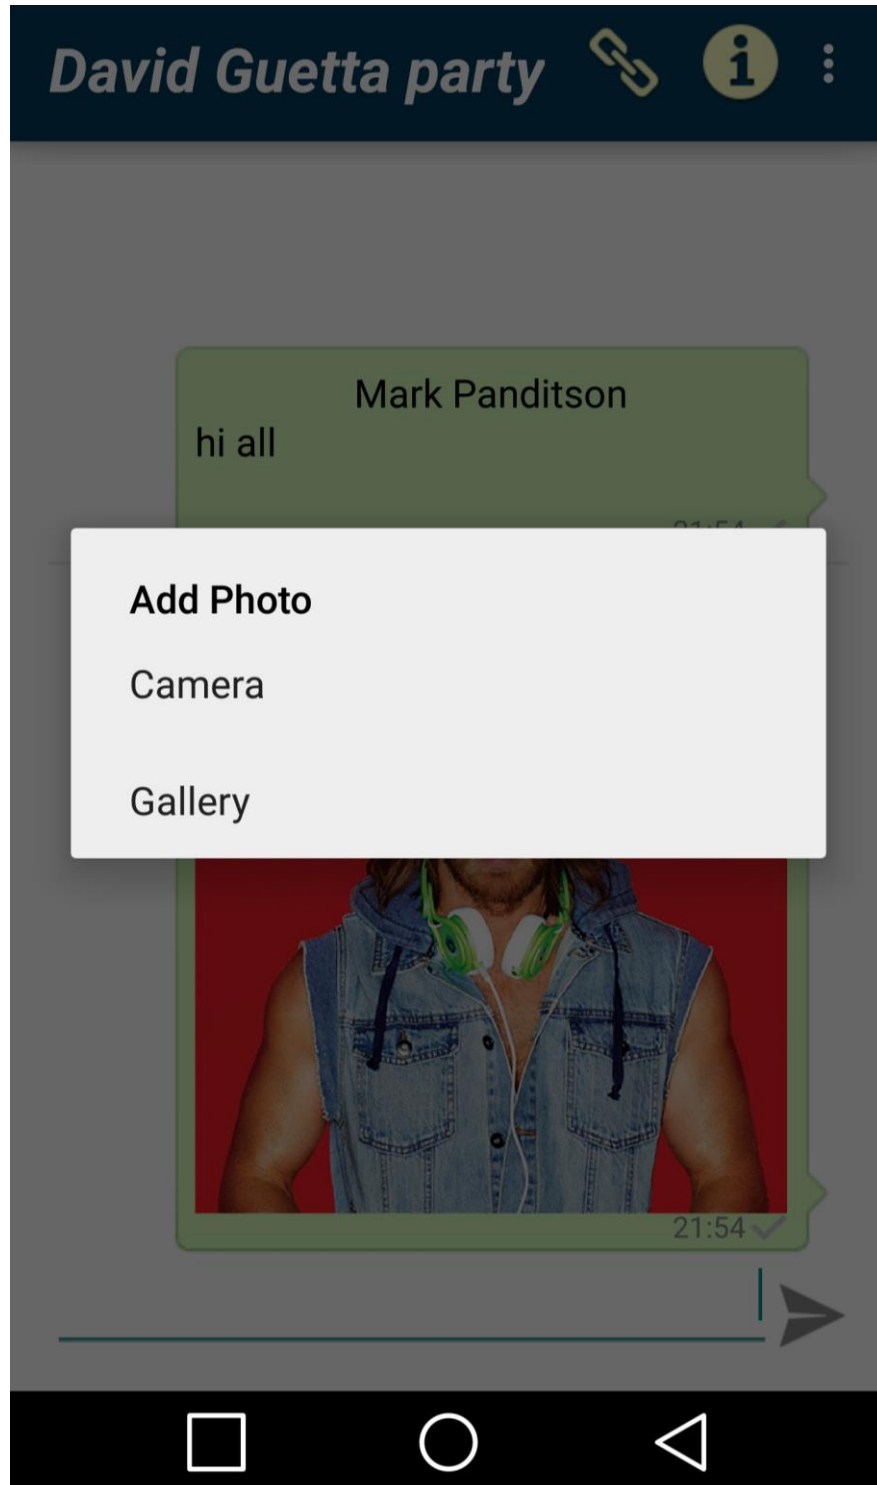

Event info screen

Clicking on the info icon will open the chat group info. The group picture, the event location and time, and the chat participants will show up.

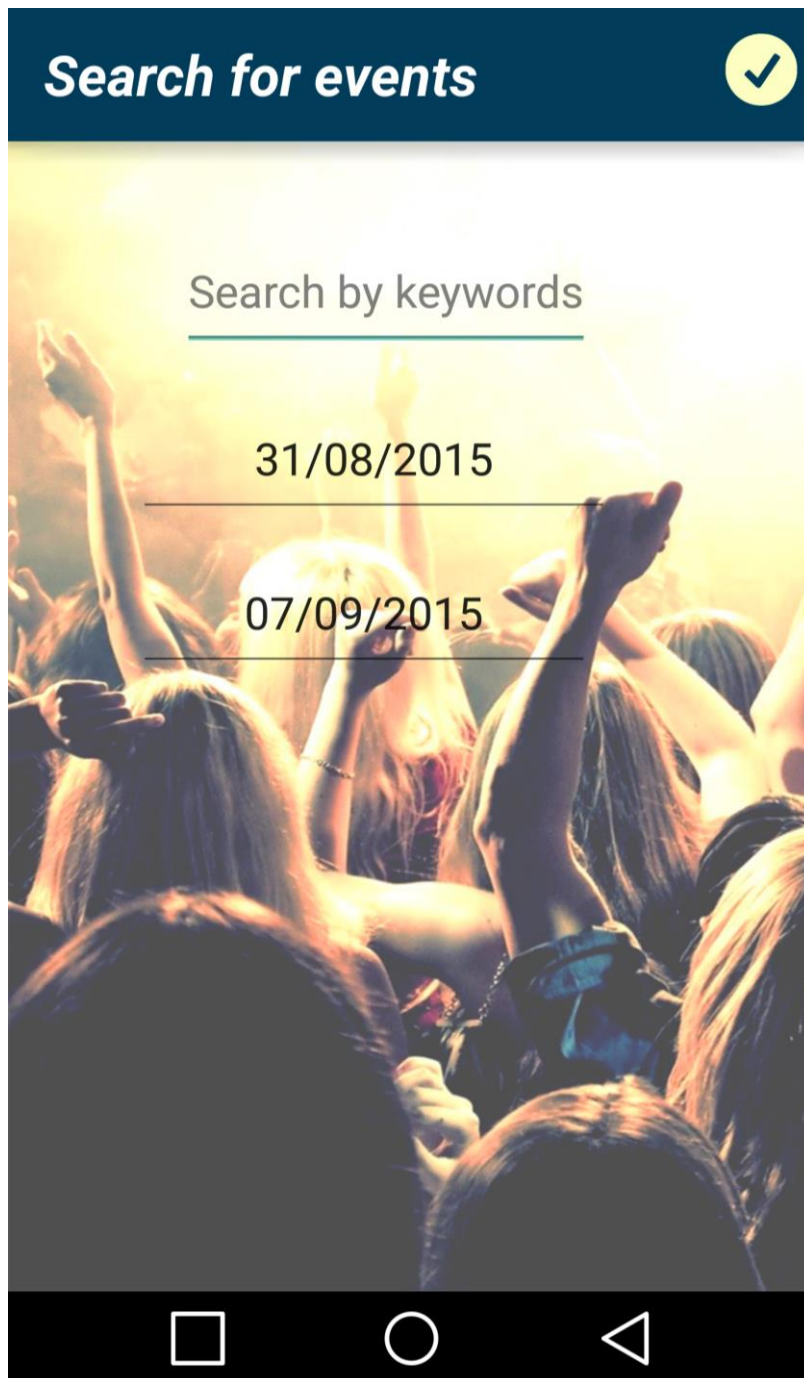

Sending image to chat room

Clicking on the link  icon, will start image selection for sending

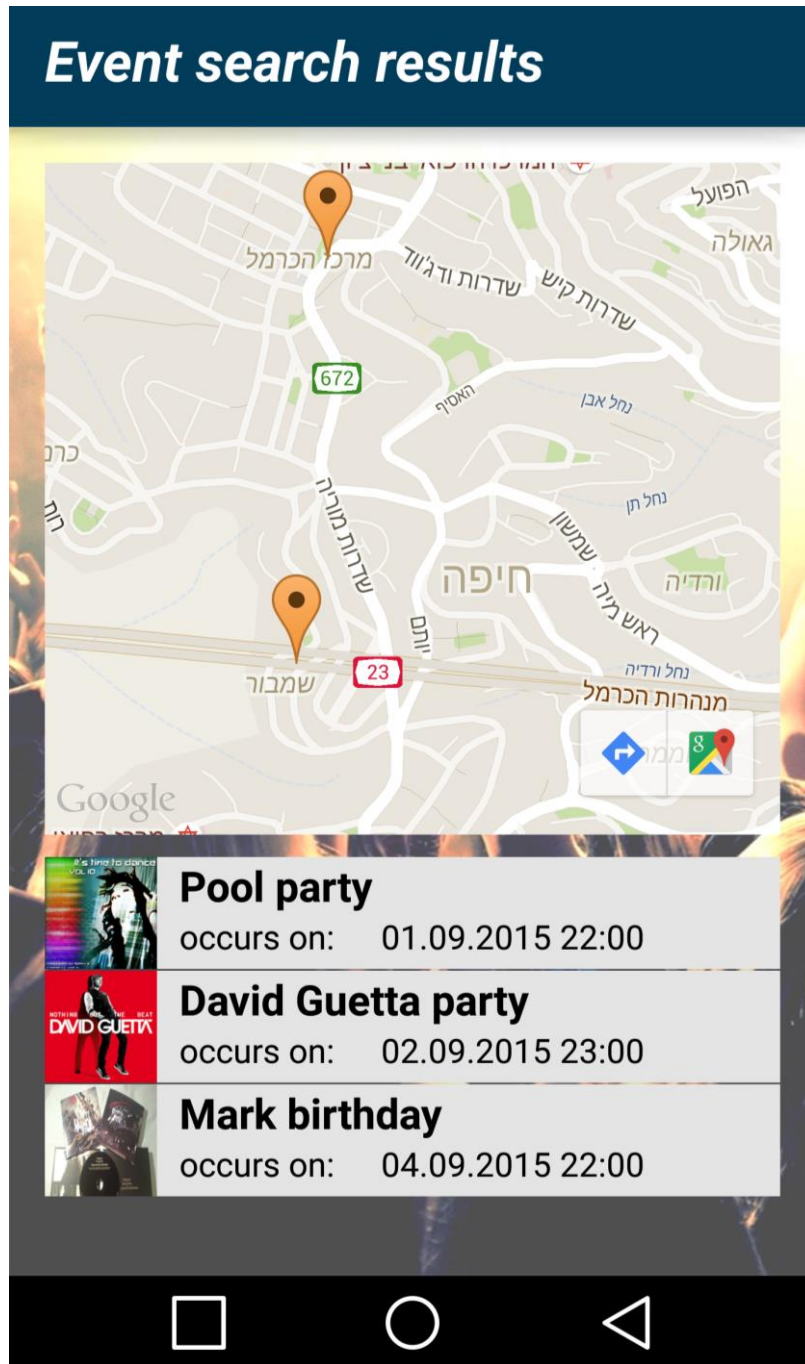

Searching events

Clicking on the magnifying glass  from the main screen will open a search dialog, where the user can search events by keywords or dates range.

Events search results screen

After filling search parameters and pressing the yellow ok button, search results will appear:

Then user can then click on one of the events in the list, get its info and join the chat group.

New event chat room creation

A new event can be created by clicking the magic-wand create icon from main screen top bar.

The user will then fill in the event details. In the screen he will be asked to choose friends, from his facebook friend, using Eventshare, to add to the chat room.

A screenshot of a mobile application screen titled "Add new event" in a dark blue header with a yellow checkmark icon. The background is a photo of a crowd at a concert. The form fields are as follows: a red album cover for "DAVID GUETTA" with the text "NOTHING BUT THE BEAT" above it; a text field with "Add Photo"; a text field with "David Guetta party"; a text field with "party gueta trans"; a text field with "לאס וגאס, נוודה 186-198,89106 W"; a text field with "Charleston Blvd"; a date field with "02/09/2015" and a time field with "23:00"; and a checkbox labeled "Visible to outsiders?" which is checked with a green checkmark. At the bottom is a black navigation bar with white icons for a square, a circle, and a triangle.
